

Virginia, to gather additional technical information to assist EPA in resolving these technical issues in order to finalize the guidance. This meeting will involve representatives from EPA Regions, States, the regulated community, trade associations, the scientific community, and environmental groups. Representatives from the parties submitting comments are invited to attend the meeting to present supporting data. This meeting will focus particularly on the procedure for developing quantitation levels (when there is no promulgated ML) to measure compliance with WQBELs. The meeting will provide an opportunity for commenters to present information supporting their specific concerns.

EPA is interested in the following types of technical data:

(1) Data to support the proposed use of the minimum level at 3.18 times the MDL (analogous to the International Union of Pure and Applied Chemistry (IUPAC) and the American Chemical Society (ACS) limit of quantitation) in the absence of a promulgated ML.

(2) Data to support an alternative quantitation level for compliance monitoring with WQBELs in the absence of a promulgated ML.

(3) Data which show the impacts of matrix interference which are not accounted for through the proposed site-specific MDLs or MLs, as well as any industry matrix interference data to support matrix interference cases.

In addition to the technical data above, EPA would like to review any actual examples submitted by commenters of enforcement actions taken for violating WQBELs set below detection or quantitation levels.

It is EPA's objective that this meeting be comprised of representatives who: contribute technical expertise relevant to this topic; represent a wide spectrum of interests (e.g. business, academia, environmental groups, and government); and are willing to participate in the entire two day meeting.

Participants must submit any supporting data they wish to provide by *June 22, 1995*. The data will be compiled by EPA prior to the meeting to ensure an organized presentation of information. Please note that technical comments on alternative approaches to develop quantitation levels received without supporting technical data cannot be considered at the meeting. If a copy of the March 22, 1994, draft "National Guidance for the Permitting, Monitoring, and Enforcement of Water Quality-based Effluent Limitations Set Below Analytical Detection or Quantitation Levels" is needed, please

contact Mildred Thomas at 202/260-6054 to receive a copy.

Once EPA has reviewed the data, data summaries will be sent to all registered participants prior to the August meeting. Specific information on the meeting location, time of meeting and meeting agenda will be sent to each registered participant prior to the August 2 & 3, 1995 meeting.

Dated: May 17, 1995.

Michael B. Cook,

Director, Office of Wastewater Management.

BILLING CODE 6718-02-M

FEDERAL RESERVE SYSTEM

Larry Reginold Dean, et al.; Change in Bank Control Notices; Acquisitions of Shares of Banks or Bank Holding Companies

The notificants listed below have applied under the Change in Bank

Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. Once the notices have been accepted for processing, they will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than June 8, 1995.

A. Federal Reserve Bank of Atlanta (Zane R. Kelley, Vice President) 104 Marietta Street, N.W., Atlanta, Georgia 30303:

1. *Larry Reginold Dean*, Lake Park, Georgia; to retain 10.96 percent of the voting shares of VB&T Bancshares Corporation, Valdosta, Georgia, and thereby indirectly acquire Valdosta Bank & Trust Company, Valdosta, Georgia.

B. Federal Reserve Bank of Chicago (James A. Bluemle, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. *William A. Moore*, Huxley, Iowa; to acquire an additional 76.5 percent for a total of 100 percent of the voting shares of Huxley Bancorp, Huxley, Iowa, and thereby indirectly acquire First State Bank, Huxley, Iowa.

Board of Governors of the Federal Reserve System, May 19, 1995.

Jennifer J. Johnson,

Deputy Secretary of the Board.

BILLING CODE 6210-01-F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Announcement 568]

Community-Based Asthma Intervention Demonstration Programs

Introduction

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1995 funds for cooperative agreements for the development, implementation, and evaluation of community-based asthma intervention demonstration programs.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Environmental Health. (For ordering a copy of "Healthy People 2000," see the section "Where to Obtain Additional Information.")

Authority

This cooperative agreement is authorized under the Public Health Service Act, section 301 (42 U.S.C. 241).

Smoke-Free Workplace

PHS strongly encourages all grant recipients to provide a smoke-free workplace and to promote the nonuse of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.

Eligible Applicants

Eligible applicants are the official public health agencies of States or their

bona fide agents or instrumentalities. This includes the District of Columbia, American Samoa, the Commonwealth of Puerto Rico, the Virgin Islands, the Federated States of Micronesia, Guam, the Northern Mariana Islands, the Republic of Palau, and federally recognized Indian tribal governments.

Only one application from an official agency (State or local) may enter the review process and be considered for award under this program. Eligible applicants may enter into contracts and consortia agreements and understandings as necessary to meet the requirements of the program and strengthen the overall application. The intent to use the above mechanisms must be stated in the application and the nature and scope of work of these mechanisms requires the approval of CDC.

Availability of Funds

Approximately \$200,000 will be available in FY 1995 to fund two awards. It is expected that the average award will be \$100,000. It is expected that the awards will begin on or about September 30, 1995, and will be made for a 12-month budget period within a project period of up to 2 years.

Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

Purpose

The purpose of this project is to develop and test cost-effective, community-based asthma interventions which address one or more of the environmental risk factors among poor children. The specific objectives are:

A. Develop a community-based intervention program which is demonstrated to be cost-effective, can be sustained over time, and can serve as a model for other communities;

B. Evaluate the effectiveness of interventions which are targeted at specific risk factors;

C. Establish a network of public and private organizations and individuals within the community who share a common goal of preventing morbidity due to asthma among poor and other high-risk children to work on improved public education about asthma and its prevention and;

D. Improve the understanding concerning the prevalence of specific environmental risk factors among poor and other high-risk children with asthma.

Program Requirements

In conducting activities to achieve the purpose of this program, the recipient

will be responsible for the activities under A. (Recipient Activities), and CDC will be responsible for the activities under B. (CDC Activities).

A. Recipient Activities:

1. Establish a mechanism for the surveillance of urgent care visits for asthma among a target population;
2. Develop a network of community organizations and individuals who share an interest in the health of poor children for the purpose of enhanced coordination of efforts aimed at patient and public education about asthma;
3. Measure the prevalence of one or more environmental risk factors within a target population and;
4. Develop, pilot test, and evaluate a community-based asthma intervention program focused primarily on one environmental risk factor.

B. CDC Activities:

1. Sponsor a planning workshop for all recipients and selected outside experts;
2. Collaborate with the recipient in all stages of the project, including the design of the protocol and data collection instruments, data analysis, interpretation of results, and preparation of written reports;
3. Provide on-site programmatic technical assistance in planning, implementing, and evaluating ongoing and innovative program activities;
4. Participate in improving program performance through consultation based on information and activities of other projects and;
5. Coordinate the activities of all recipients and facilitate the exchange of information and experiences among recipients.

Evaluation Criteria

Applications will be reviewed and evaluated according to the following criteria:

1. Understanding the Problem (10 points)

Evidence of the applicant's understanding of the problem and the purpose of the cooperative agreement.

2. Measurable Objectives (25 points)

The consistency of the measurable objectives with the stated purpose of the cooperative agreement and the ability to meet the objectives and timetable within the specified period.

3. Proposed Plan (25 points)

The adequacy of the applicant's plan to carry out the activities proposed. Of particular interest is the potential long-term sustainability of the intervention and the involvement of community organizations.
